# THE MARKET SLUGGISH

Little Significance Attaches to Drift of Prices of Stocks on New York Exchange.

### RATES TIME MONEY HARDEN

More Time Given by Brokers to Betting on the Election Than

to Trading in Stocks.

(By Associated Press.) NEW YORK, Nov. 2.—The sluggish drift of prices in to-day's stock market had little significance. A number of factors conduced to the extreme duliness. It was a holiday in London and to-morrow will be a holiday here. More time was given by brokers to betting on to-morrow's elec-tion than to the trading in stocks. The advancing tendency of the stocks of New York corporations reflected the views of operators of the effect of the supposed outcome of to-morrow's elecviews of operators of the effect of the supposed outcome of to-morrow's election on the values of those scourities. American Car in face of a reported decrease of \$226,043, in net earnings for the quarter ended August 31st, rose sharply and carried the other railroad equipment stocks with it. Money continued to go to the interior, the sub-treasury transferring \$650,000 to New Orleans and \$200,000 to Chicago. The movement to St. Louis was discontinued, with a beneficial effect upon sentiment. The rates for time money hardened decidedly and not much business was done under six per cent. Call loans on the cohtrary, eased notably and fell to two percent. at the last. The market for foreign exchange was fairly demoralized and troke violently under offerings of colton bills with very light demand for remittance. A report which circulated that \$1,000,000 in gold had been engaged in London for shipment to New York, although not officially confirmed, was generally credited and formed the basis of an expectation that further gold would come in. This was the dominating influence on the market, which resulted in advances, reaching about a point in a number of the Pacifics.

The advance in money rates continued to restrict the business in bonds, but prices were fairly well maintained, gains alternating about equally with losses. Total sales, par value, \$1,855,000.

The defect upon sentiment to the last call. Total sales of stocks to-day were 197,500 shares.

## Official Range and Sale of Stocks in New York

Readers will observe that in some stocks we give both the New York and Richmond quotations. In the Richmond quotations we give 'bid and asked' prices only. In the New York quotations we give opening sale, lowest sale, highest sale and closing, bid and asked. Sometimes the closing bid in inactive stocks is me sely nominal and does not fairly indicate the price of the stock.

## THE PRODUCE MARKET.

Game Season Opened Yester day-Market Doing Well.

Beginning with this week a plentitude of game will stock the Richmond produce market. The geason opens to-morrow, and by the latter part of the week the stuff will begin to come in the stuff will begin to come in in good quantity—partridges, rabbits, and wild turkeys. The market is, of course, no little interested in the matter, as are the consumers who are awaiting with asgerness for the new dishes made possible. The outlook is decidedly for an excellent trade in this direction. Venison has been on the market for some little while, though in no very large quantity. Whole deer is selling well at 10 and 11 cents per pound.

The past week on the market has been an exceptionally good one, considering all things. There were no events of any stratling importance and no transactions of any wonderful magnitude, but it was, nevertheless, a good, bright week, entirely satisfactory to the majority of the mer-

10 cents.

Eggs are still scarce, and the trading is pretty brisk. The price has advanced again, and is now 23 cents per dosen. Butter is selling at 13 to 18 cents per pound, according to the quality.

Good apples are worth \$1.90 to \$2.25 per barrel; others, \$1.25 to \$1.75.

Florida oranges are selling (ripe) at \$2.75 to \$3.25, and (green) \$1.50 to \$2.25.

The Real Rag-Time.

The eraze for rag-time in London, created, no doubt, by the success of a colored company in the British metropolis, seems to have given this peculiar negro music a new lease of life in this country. In "The Bmart Bet," which will be the offering at the Academy next Thursday night, the latest and best rag-time melodies will be heard, as also some music of a very much higher order.

Simplicity and sincerity of style mark the development of a story that is told in terse and vigorous language.
